

BIG LINERS ENGINES DISABLED BY ORDER OF GERMAN EMBASSY

CAPTAIN OF KRONPRINZEN
CECILE TESTIFIED THIS
MORNING.

THREE DAYS BEFORE BREAK

Said He Got Instructions at Owners'
Office in Hoboken—Work Was
Done January 31.

(Associated Press)
Boston, Feb. 17.—Capt. Pollack of
the North German-Lloyd steamship
Kronprinzessin Cecilie testified at the
federal court hearing on the petition
for the sale of the vessel that he had
been ordered by a man connected in
an official capacity with the German
embassy to disable the machinery of
the ship. This was done to prevent
its use by the U. S. government in
the event of hostilities. He refused to
divulge the name of the man who
issued the order, Pollack said if he
divulged the name he might be tried
for treason when he returned to Ger-
many and Judge Morton said it was
unnecessary that he give the name at
this time.

Pollack was in Hoboken, N. J., he
said, when he received the order, and
he telegraphed his chief engineer
here to disable the engines. This was
done Jan. 31 and Feb. 1. He said he
met the embassy official at the Lloyd
offices in Hoboken and that Supt. Mol-
ler of the company was present.

The embassy official said: "The re-
lations between the two countries are
being severed and the condition is
very serious." The captain inquired if
the machinery was to be disabled im-
mediately and received an affirmative
answer. Moller did not participate in
this part of the conversation.

Prosecute Owners.
Judge Morton said if the point is
pressed he would find if the owners
had acquiesced in the damage to the
vessel and hold them in contempt.
The hearing on the sale of the vessel
followed libel proceedings instituted
by a New York financial firm for al-
leged failure of the vessel to carry
out a contract at the time the war
broke out.

M'Kenzie Joins Supporters Of Bill To Provide For Universal Military Training

Washington, D. C., Feb. 16.—Gen-
eral debate on the army bill was
closed in the house today. The fea-
ture of the debate was a speech by
Representative McKenzie of Illinois,
who announced his conversion to the
principle of universal training as
against the volunteer system of
raising troops.

Last year Mr. McKenzie opposed
universal training when the Hay
bill was before the house. He frank-
ly stated that if the Hay law was
passed and proved a failure the on-
ly alternative to it would be univer-
sal training. Today he admitted the
law to be a failure and predicted a
universal training law would be en-
acted in the near future.

With regard to the general staff
amendment rejected by Chairman
Dent on behalf of the Democrats,
when it was submitted by Secretary
Baker, Mr. McKenzie said he would
like an opportunity to vote for it.

BOYS ARRANGE FOR COMING BIG BANQUET

MEETING HELD AT Y. M. C. A.
TO PLAN FOR FATHERS'-
SONS' BANQUET.

A committee of high school boys
met yesterday and made preliminary
arrangements for a "father and son"
banquet to be held at the Y. M. C. A.
Tuesday, Feb. 27. The committee:
Wm. Bardwell, chairman; Shaw, Fitz-
simmons, Ryan, Dysart, Cortright, Ge-
hant, Chapman, Gardner, English,
Ackert, Santee, Ives and Whitcombe.
Committees on program and publicity
were appointed. Any boy and his father
or any father and his boy in Dixon
or vicinity is invited. Any boy who
wants to come who has no father or
whose father cannot accompany him
will be provided with a father for the
occasion if he turns his name in at
the Y. or to some member of the com-
mittee; 12 years is the minimum age
for boys to attend the banquet. The
ladies' auxiliary will serve the ban-
quet and the mothers will wait on
the table. The committee on program
will arrange a number of good toasts
and A. P. Hammesfahr of Chicago
will be speaker of the evening. Every
one intending to attend kindly make
their reservation at the earliest possi-
ble date.

DIXON "Y" QUINTET DEFEATS MT. MORRIS

EVEN SCORE WITH TOWN TEAM
IN GAME HERE FRIDAY
EVENING.

NORTH SIDE GIRLS ARE WINNERS

Score of 10 To 3 In Curtain Raiser —
Dixon Association Team
Plays Well.

(By Edward Ryan)
In a fast game of basketball Dixon
Y. M. C. A. turned the tables on Mt.
Morris and avenged their previous de-
feats by a score of 34 to 20.

The contest was witnessed by an
appreciative audience. Mt. Morris
played a steady game; their guards
"hounded" the Dixon forwards thru
the fracas. However, their forwards
got few chances at the basket, thanks
to the Dixon guardsmen.

The locals went into the game with
spirit and were resolved to get the
lion's share of points, showing fight
thru the entire game and accuracy in
basket shooting. The Mt. Morris team
were told, play good ball on their
floor, where there are four sides to
the floor with bounds limits; the Y.
floor has only one side "out," so they
were at a disadvantage.

Referee Whitcombe called out the
teams at 8 o'clock. Vaughn and Stauff-
fer, centers, battled the ball awhile,
knocking it out of bounds three times.
Finally on the fourth try Vaughn
tipped the ball off to Brother Fred.
Fred to Glessner and the latter to the
basket. Then Stauffer opened hostil-
ties on his side by making one from
a difficult angle. Dixon scored 2 to
Mt. Morris' 1. At rest time the score
stood 18-9 in our favor.

Between the halves an official from
Mt. Morris introduced a few amend-
ments to Spaulding's rule book, say-
ing Glessner had four personal fouls.
After investigating the markings on
the score book he convinced himself
that he was wrong. He then compli-
mented the scorer in words not found
in Webster's.

In the second half Kelley replaced
F. Vaughn at forward and kept up
the good work. This half made Dixon
16 to the visitors' 11. Kilger of Mt.
Morris, who was injured in the first
period, returned and played good
ball.

Government Makes that Contention
in I. H. Co. Suit

(Associated Press)
Washington, Feb. 17.—The govern-
ment has filed a brief in the Su-
preme Court in the suit against the
International Harvester Co., which
was appealed from the Federal
Court of Minnesota, in which it was
ordered the company be dissolved.
There is no such thing as a good or
benevolent trust within the meaning
of the Sherman law, the government
contends.

EXPLOSION BLINDS STUDENT

Manual Training Youth May Not Re-

PEORIA, ILL., Feb. 17.—
Howard Brehm, a student at man-
ual training high school at Peoria, was
badly injured in an explosion of
chemicals with which he was experi-
menting in the school laboratory. Both
of his eyes were blown out, his face
badly lacerated and his body burned
and bruised.

He is not expected to live.

FELL AND CUT HAND

Harold Kinzey, son of Mr. and
Mrs. Harry Kinzey of 408 West

dent when he fell, cutting a four-
inch gash in his hand on a piece of
glass. Several stitches were taken
and he is now resting quite comfort-
ably.

BAND BAZAR CLOSES TONIGHT

Chamber of Commerce Musicians'
Entertainment Nearly Through

The Chamber of Commerce band's
bazaar, which has been in progress
at Rosbrook hall all this week, will
end with tonight's entertainment,
and the largest crowd of the week
is looked for tonight. The fair has
been a pleasing success to the pro-
moters and the members of the
band, the patronage being such that
a nice sum has been added to the
band treasury.

BISHOP EDSALL IS REPORTED NEAR END

FORMER DIXON MAN IS NOT EX-
PECTED TO LIVE 48
HOURS.

HEADS MINNESOTA DIOCESE

BULLETIN
(Associated Press)

Rochester, Minn., Feb. 17.—Bishop
Samuel C. Edsall, Episcopal Bishop
of Minnesota, is dead.

Rochester, Minn., Feb. 17.—Bishop
Edsall was born in Dixon, Ill., March
4, 1860 and his forty years of activity
were confined principally to Illinois.
He studied law and was admitted to
the bar in 1882. A few years later he
entered the Western Theological Sem-
inary, graduating in 1889. He was or-
dained priest the same year. Mr. Ed-
sall founded the mission church of St.
Peter in Chicago.

Bishop Edsall was a thirty-second
degree Mason and was prominent in
Masonic circles. Mrs. Edsall was for-
merly Grace Harmon of Aurora. Mr.
Edsall had undergone an operation.

Advices received from Miss Carrie
Eells, who left Tuesday for Roch-
ester, Minn., in response to a telegram
announcing the serious condition of
her cousin, S. C. Edsall, Bishop of the
Episcopal diocese of Minnesota, are
to the effect that the physicians at the
Mayo hospital, where an abdomi-
nal operation was performed the first
of the week, hold no hope for his
recovery.

The Bishop's two sons, who have
been on the Mexican border, and his
daughter, have been summoned to his
bedside and his passing is expected
within 48 hours. Bishop Edsall for-
merly lived here and has many
friends in Dixon who will be deeply
pained to learn of his condition. He is
an uncle of Mrs. S. C. Eells of this
city and his father was at one time
states attorney of Lee county. A tele-
gram received this afternoon states
that he cannot live through the night.

INSPECT GERMANS' CREDENTIALS

(Associated Press)
Halifax, Feb. 17.—The examina-
tion of the credentials of Count von
Bernstorff and his party who are on
the steamer Frederick VIII en route
to Copenhagen, was begun today by
a large force of Canadian inspectors.
The ship was taken to a secluded
part of the harbor. Members of the
German party were on deck early
this morning although the shore
view was not inspiring, presenting a
jail in one hand and a brewery on
the other.

PLOT TO WRECK CHICAGO

Whole Battery of Boilers at Huge
Plant Escapes Destruction.

Chicago, Feb. 17.—A plot to blow
up the battery of twelve immense
boilers of the Commonwealth Edison
plant at Twenty-second and Fiske
streets, with an appalling loss of life
and a staggering loss in money, was
foiled by a quick-witted foreman after
a valve actually had been opened to
let the water out of the master boiler
and explode the whole battery.

Three men were arrested and, after
hours of questioning by the police, de-
partment of justice officials, special
agents for the electric light company
and picked Pinkertons, were locked up
for the night under special guard. Fed-
eral officials will resume the question-
ing early in the morning in an effort
to reach hidden details of what seems
to be a gigantic plot. Police say the
explosion would have wrecked the
west side of Chicago.

MASONS OF DISTRICT TO HOLD SCHOOL HERE

PROMINENT STATE OFFICERS TO
HAVE CHARGE OF THREE-
DAY SESSION.

ALL MASONS ARE INVITED

Call For School Has Been Sent To All
Members Within Radius of
Fifty Miles.

A school of instruction for all Ma-
sons of this section of the state will
be held in Dixon on next Tuesday,
Wednesday and Thursday, and doubt
less on the three days there will be a
large attendance of out-of-town mem-
bers of the order. The following call
for the school, issued by District In-
structor Mark C. Keller of this city,
explains the meeting and tells of its
importance:

To the Worshipful Masters, Wardens
and Brethren of All Constituent
Lodges, A. F. & A. M.:

A cordial invitation is extended to
the Masons of this and surrounding
jurisdictions to attend the A. F. & A.
M. District School of Instruction, to
be held in the Masonic Hall at Dixon,
Illinois, on Tuesday, Wednesday and
Thursday, February 20, 21 and 22,
1917. This school will be under the
direct supervision of Brother S. C. D.
Rea, Right Worshipful Grand Exam-
iner.

Rev. R. Keene Ryan, Right Wor-
shipful Grand Chaplain, will be pres-
ent on the evening of Thursday, Feb.
22, and deliver an address. Every
Mason within a radius of fifty miles
should be present and hear this gift-
ed orator.

FORMER PALMYRA BOY IS DEAD

Edward Emory Died at Sioux City,
Iowa, Yesterday—Burial Here

Word was received in Dixon last
evening of the death of Edward Em-
ory, a former Palmyra boy, at Sioux
City, Iowa, yesterday. No particu-
lars concerning his death were given
in the message. The remains will
probably arrive in Dixon tomorrow
morning, in which case funeral ser-
vices will be held tomorrow after-
noon at Morris & Preaton's chapel,
with interment at Sugar Grove ceme-
tery.

EMBARGO HITS TRADE BOARD

Chicago Grain Men Say 14 Ships Are
Held Waiting in Harbor.

Chicago, Feb. 17.—Board of trade
members, who have been exerting
every effort in their power during the
last forty-eight hours to have millions
of bushels of grain moved to the east,
complain bitterly of the "gentlemen's
agreement" entered into by thirty eastern
railroads to embargo export ship-
ments until the domestic situation is
cleared.

They maintain that the British ad-
miralty has fourteen ships waiting at
eastern ports for near 4,000,000 bu.
of different grains, that the ships have
been waiting more than a week, and
that the new efforts of the railroads
to "relieve the situation" cast another
stumbling block in their way.

200 DIE IN MEXICAN WRECK

Zapatista Bandits Place Bombs on
Tracks—Four Trains Victims.

Laredo, Tex., Feb. 17.—Between 150
and 200 passengers and de facto sol-
diers were killed when four trains
were blown to atoms near Crizaba,
half way between Mexico City and
Vera Cruz, according to passengers ar-
riving from Mexico City. The trains
all were wrecked within three hours,
the passengers say, Zapatistas placing
dynamite under them.

Refugees declare that Zapatistas are
creating a reign of terror between
Mexico City and Vera Cruz, many
ruthless murders being committed and
the inhabitants are in a state of panic.

has appointed the county officials and
the chairman of the board of super-
visors of Lee county as a committee
to work up plans for proper celebra-
tion of the state centennial in 1918
in Dixon and Lee county.

This committee recently held a
meeting and elected County Judge
John B. Crabtree as permanent chair-
man and County Clerk Fred G. Dim-
ick as secretary and treasurer of the
committee.

Chairman Crabtree has appointed
Co. Supt. L. W. Miller as chairman
of the executive committee. Other ap-
pointments will be announced later
and the committee plans to hold a
public meeting for those interested in
the proposition in the future.

ARGUE FOR NEW TRIAL

was completed in the circuit court.

This is said to be the first jury
selected for such a case since the en-
actment of the law.

Congress Passed Special Bill To Grant Rev. Joseph Beech Full U. S. Citizenship

Rev. Joseph Beech of this city late
yesterday received word from Con-
gressman McKenzie stating that the
special bill, which he recently asked
congress to pass, had been adopted
by both branches and that he now en-
joys full citizenship rights. Readers
of the Telegraph will remember an
article printed last week stating that
Rev. Beech had supposed until re-
cently that he was an American citi-
zen, and that finding that his father,

American Arriving at Amsterdam

(Associated Press)
BULLETIN

London, Feb. 17.—American con-
suls who are still in Germany may
not be able to leave for home for
weeks, according to an American who
arrived in Amsterdam.

Washington, Feb. 17.—That Wil-
son will soon go before congress to
announce steps to relieve the subma-
rine situation is the generally accept-
ed view here.

The government today tackled the
problem of the tie-up of ships in Am-
erican ports by the submarine danger
and while the president and navy de-
partment pondered over the question
of arming merchantmen, McAdoo pre-
pared a list of vessels being held in
port and Redfield worked on an anal-
ysis of the damage submarines are
causing shipping generally.

LITTLE INTEREST IN GERMANY'S PROPOSALS

The text of explanatory and sup-
plementary clauses proposed by Ger-
many as a protocol to the Prussian-
American treaty have been made pub-
lic by the state department. The pro-
ocol amplifies the treaty so as to
place Germans in this country and
Americans in Germany on the same
property rights in case of war: Free-
dom from detention or sequestration
or property that is applicable to other
neutrals, and that the nationals of
either country might remain undist-
urbed in the other country as long
as they pleased and not for 9 months,
as provided for in the treaty. Two
proclamations have already guaran-
teed that German private ships and
private German property in the United
States will not, even in case of a
war, be seized, and therefore little in-
terest is shown by the state depart-
ment in the German proposals.

British Steamer Ashore.
Lewes, Del., Feb. 17.—The British steamer Sahara, from Cadiz, Spain, for Baltimore, went ashore on Ship Shoal, eight miles south of Cobbs Island, Va. The Cobbs Island coast guard station reports that the steamer is in "good condition," but badly ashore. The Sahara is in ballast.

Cigarettes Still Banned.
Des Moines, Ia., Feb. 17.—By a vote of 28 to 21 the state senate killed the Rule bill to license the sale of cigarettes in Iowa, and they will continue under ban of law.

MOTHER! YOUR CHILD IS CROSS, FEVERISH, FROM CONSTIPATION

If tongue is coated, breath bad, stomach sour, clean liver and bowels

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little tot is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that his little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of his little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages, new for grownups printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the California Fig Syrup Company.

Three Hanged in Montana.
White Sulphur Springs, Mont., Feb. 17.—Three negroes, Leslie Pabley, Harrison Gibson and Henry Hall, were hanged here for killing and robbing Michael Freeman, a white farm hand, near Judith Gap.

London in Sea Warning.
Washington, Feb. 17.—The American embassy in London notified the state department of a revised danger zone in the North sea because of German's unrestricted sea warfare.

In the Matter of Henry A. Rambo, Bankrupt. In Bankruptcy No. 379. TO THE HONORABLE KENESAW MOUNTAIN LANDIS, Judge of the District Court of the United States for the Northern District of Illinois:

Henry A. Rambo, of Amboy, in the County of Lee and State of Illinois, in said district, respectfully represents that on the 2nd day of February, 1916, last past, he was duly adjudicated bankrupt under the acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the Court touching his bankruptcy.

WHEREFORE, he prays that he may be decreed by the Court to have a full discharge from all debts provable against his estate under said acts, except such debts as are excepted by law from such discharge.

Dated this 24th day of January, A. D. 1917.

HENRY A. RAMBO, MARK C. KELLER, Atty. for Petitioner. ORDER OF NOTICE THEREON.

IN THE DISTRICT COURT OF THE UNITED STATES, NORTHERN DISTRICT OF ILLINOIS, WESTERN DIVISION.
On this 12th day of February, A. D. 1917, on reading the foregoing petition, it is

ORDERED BY THE COURT, that a hearing be had on the same on the 16th day of April, A. D. 1917, before said Court, at Freeport, in said District, at 10 o'clock in the forenoon; and that notice thereof be published in The Dixon Telegraph, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

AND IT IS FURTHER ORDERED BY THE COURT, that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

WITNESS, the Honorable Kenesaw M. Landis, judge of the said Court, and the seal thereof, at Freeport, in said district, on the 12th day of February, A. D. 1917.

SPORTING NEWS

St. Louis, Feb. 16.—Fielder Jones, manager of the St. Louis Americans, will turn over his surplus players to the Portland club of the Pacific Coast league, according to announcement here. It is understood that an agreement exists between Portland and St. Louis whereby the western club will be given first call on any available material. There are two recruit pitchers on the roster of the St. Louis club who made fine records in the minor leagues, and Jones says he will give these men a try-out before turning them over to Portland.

Columbus, O., Feb. 16.—"Miner" Brown may wear a Columbus uniform during the coming season, according to friends of Joe Tinker, the new owner of the local Association club. Tinker and "Brownie" were staunch friends in the days of the famous Cub machine, when the three-fingered marvel won game after game while Tinker cavorted around short. When Tinker went to the Federal league he took Brown with him. Then when Weeghman bought the Chicago Nationals and Tinker became manager, Brown again was a member of the pitching staff. He was recently released by the Chicago club.

HELP BUILD UP THIS COMMUNITY

None of Us Prospers at the Other Fellow's Expense

The thing that strikes every man when he sits down to consider it is how inter-dependent we are upon each other. No one class can gain at the expense of all the other classes. This is a fact that has been strikingly emphasized during the mighty war in Europe. There every nation has found it necessary to run every activity having even the remotest connection, on a highly efficient basis.

In our own country the factories could not run without markets for their goods, and if the factories didn't run, the farmer couldn't make money for there would be no market for his surplus product. As the farmer prospers, the entire nation prospers. So, too, as the commercial interests of the country prosper, the farmer prospers.

After all, we look to each other for our living and if we can throw into the channels of business the millions of dollars we all owe each other, so that we can again use these dollars to buy more things we need, every man who is supplying a real need will prosper.

This is the object of NATIONAL PAY UP WEEK, Feb. 19th to 24th. You can help and you can be helped if you will participate in the Pay Up Week campaign. Every business man in our town has pledged himself to pay all of his bills that he can at this time. Now let's all work together. LET'S PASS PROSPERITY AROUND.

Don't make any mistake in the plan. The idea isn't that you must pay me, but the idea is that we will all pay each other. If we all take it upon ourselves to start the ball rolling, we can have a real Pay Up Week here. If we sit back and wait for the other fellows to pay up, it will not be as great a success as it should be.

This movement has been taken up in our town upon the recommendations of hundreds of towns and cities which engaged in the previous National Pay Up Weeks. It is to be truly national in scope—as thousands of communities in every section of the United States, from one coast to the other, from the north line to the Gulf of Mexico, will take part in it.

During this week the energies of millions of people will be centered upon the passing of the busy dollar around, cleaning up old debts. Starting in new, prosperity will certainly result from it.

PASS PROSPERITY AROUND

NATIONAL PAY-UP WEEK

FEBRUARY 19 TO 24-17

I'll Pay My Bills So You Can Pay Yours

Everybody's Pay-Up Week

A WEEK NOT FOR ANY ONE CLASS BUT FOR EVERYBODY CONCERNED

For the third time a great wave of good business is to pass across the country, for during the week of Feb. 19th to 24th millions of dollars will change hands in the United States, to the benefit of everybody in the communities which observe this patriotic campaign.

It is so easy for a little money to build up a great deal of prosperity when it is kept moving in legitimate channels that the beneficial results of National Pay Up Week are certain to be felt far and wide. Let everybody plan, during Pay Up Week, to clean off the slate all obligations and enter into the coming season prepared to do better than we have ever done before.

Pay-Up Week Is A Good Idea

PAY AND PROSPER

The traveling dollar is the dollar that is doing its duty. Let's keep the dollars traveling during National Pay Up Week.

Then the rich, the poor and the needy will cash in. Everybody will be benefited and National Pay Up Week will be the best idea that has come to our city in many a day.

We are going to have a Pay Up Week in this community. In order to promote friendship, good feeling, business credit, be one of the folks that settle all bills during this period. You will be better off—even if you have to economize sharply for a short time afterwards—those you pay will be better off because you will help them pay their bills and the whole community will profit.

Let's Pass Prosperity Around By Paying Our Bills, Not Just A Few Of Us Buy Every Man and Woman In This Community

Kingdom-Bend Aid

The Kingdom-Bend Aid society held its most largely attended meeting, a Valentine party, at the home of Mrs. Joseph Atkinson of east of town Wednesday.

The fifty-eight present included groups from the Palmyra Mutual Aid (Mrs. Carrie Cleary, Mrs. Bert Swartz, and Mrs. Bert Deedey), from the Nachusa Aid Society (Mrs. Garrison, Mrs. Coleman, and Miss Myrtle Herbst), and St. James Aid (Mrs. L. E. Burket). Other guests were Mrs. Luthi, Miss Margaret Lough, Mrs. Wm. Carlsson, and Mrs. Bothe.

Mrs. Atkinson had most appropriately decorated her home in the Valentine symbols, hearts and cupid, and these together with her many rare potted plants, made the home very attractive.

The usual scramble dinner at noon was an especially appetizing one with roast goose as the chief dish.

The after-dinner business session was devoted to the election of Mrs. Trvon Rosbrook as chairman of the flower committee, and Mrs. Maud Hoover and Mrs. Mary Kime were chosen as her assistants.

A mirth-provoking program followed, with I. G. Hoover as chief merry-maker and now it is whispered that Mr. Hoover need never go hungry if the Kingdom-Bend Aid is meeting, for one of his readings will be received as equal to the best coin of the realm in payment. Mrs. Arthur Floto and Mrs. Charles Floto also gave two delightful readings, each. Another interesting feature was the reading of "An Ode to the Kingdom-Bend Aid Society" by Mrs. Stevens. The author's name was not divulged.

The Valentine Exchange furnished a great deal of amusement before the final adjournment of the members.

Smelting Class Social

The annual social of the Sunshine Class of St. Paul's Sunday School was held Thursday evening at the spacious home of Mrs. James Seybert. Eighty-five members and friends of the class gathered at the Seybert home at 8:30 o'clock and at 7 all were invited to the dining room where a delicious scramble dinner was served. The centerpieces of the tables were large baskets of pink and white hyacinths. Decorations throughout the house were in the pink and white. After the dinner a short business session was held which was followed by a program and social time arranged by the entertainment committee. Expressions of pleasure over the affair were many as the guests departed.

Honeymoon in Florida

Friends have received word of the recent marriage of H. M. Wright, formerly of E. Second street, Dixon. Mr. Wright married his first wife's sister and they are now spending their honeymoon in St. Petersburg, Florida.

Valentine Surprise Party

At the home of Mr. and Mrs. Charles Welker near Polo, on Feb. 14th, a complete surprise was perpetrated upon Mrs. Welker in honor of her birthday. Thirty-eight of her friends gathered at her home prepared to make the evening a happy one. A delicious oyster supper was served and later Mrs. Welker was presented with a set of beautiful silver teaspoons by Rev. D. F. Sevster in behalf of the guests. Mrs. Welker expressed her appreciation in a few happy phrases. The remainder of the evening was spent in playing games. Wishes of many more happy birthdays were voiced by the guests as they departed at the close of the most agreeably spent evening.

Mrs. Earl Kennedy entertained at dinner Thursday Mrs. Hillis, Mrs. Floyd Teachout, little daughter Mary Elizabeth and twin babies of Ottawa, and Miss Allie Patrick and Sue Glessner.

Birth Announcement

Dixon friends will be interested in the announcement of the birth of a daughter to Mr. and Mrs. Dexter Hietzer of LaMoille. Mr. Hietzer at one time was a student at the Coppins Commercial College, and has many friends here.

Valentine Wedding

Sterling Gazette: A beautiful wedding was solemnized at the home of Mr. and Mrs. Frank Pfundstein, when their daughter Cora O. Pfundstein, was united in marriage to Warren Wolber, February 14, 1917, at 6 o'clock, by their pastor, Rev. P. C. Boysen, using the ring ceremony.

Before the ceremony Mrs. Floyd Schultz sang "I Love You Truly" by Carrie Jacob Bond, and then softly played Mendelssohn's Wedding March. The ring bearer was Master Lettley Osier, of Beloit, Wis., who carried the ring on a hand painted tray, followed by the bride and groom.

The ceremony was performed in the center of the living room under a canopy of white and green. The serving rooms were decorated in pink and white. The bride's gown was white tulle with a trimmed in chantilly lace and she carried a shower bouquet of sweet peas and freesias.

A two course luncheon followed, the waitresses being Nellie Wolber, Hazel Fiske, Hazel Stulzer, Pauline Cook. The caterer was Mrs. Thomas, assisted by Miss Jessie Arnold.

The eighty guests were greeted by Mrs. Pfundstein and Irene Meyers. The groom is a son of Supervisor and Mrs. Matt Wolber of Geneseo, and is widely known as a young man of sterling character. After March 15 the young couple will be at home on the farm of the groom's father in Geneseo.

The bride has a number of friends in Dixon who will be interested in the foregoing.

Washington Party

The South Side Circle of the Woman's Auxiliary of the Baptist church will entertain the entire membership of the Auxiliary with a Washington party at the home of Mrs. James Lennon and Mrs. Frank Ballou on Wednesday afternoon, February 21st.

Annual Church Dinner

The members of the Baptist church enjoyed an informal social evening at the church Friday evening, a scramble dinner preceding the social hour. This is an annual event of the church and this year was planned by a committee under the chairmanship of Mrs. Ray Miller. The dinner was excellent and the affair in every way enjoyable.

Entertains Grandchildren

Mrs. H. C. Dixon is entertaining her grandchildren, Miss Jennie and Master Hughes Dixon.

Married in Joliet

Rochelle, Ill., Feb. 16—Arthur Reynolds, a nephew of Edward Reynolds of this city, and Miss Laura Knott, were married in Joliet on Thursday. Mr. and Mrs. Reynolds will reside in Joliet where the groom represents the Radio Piano Co. Mr. Reynolds is a son of W. E. Reynolds, of DeKalb.

Visited in Clinton

Mrs. Nolan Lord and little son, Rodney Nolan, returned Thursday from Clinton, Iowa, where Mrs. Lord visited with Clinton friends and with a girl friend from Canada who also visited with Clinton friends at the same time.

Club Luncheon

Mrs. Guy Merriman most pleasantly entertained the City Arts Club at the usual club luncheon Friday afternoon at the home of her mother, Mrs. John McBride.

On Vacation Visit

Miss Louise Smith is home from Chicago for a brief visit with her parents, Mr. and Mrs. Blinn Smith. Miss Smith is a student at the Columbia School of Music.

Webber-Hamaker

An attractive wedding ceremonial of Thursday, February 15th, was that uniting the lives of Miss Hazel Webber, a daughter of Mr. and Mrs. W. A. Webber of Compton, and Russell Hamaker, a son of W. Hamaker of Chana. The wedding took place at the home of the bride, Rev. Mr. Otjen of Steward read the service.

The bride's gown as well as the decorations of the house were carried out in yellow and the effect was beautiful. Yellow roses and other yellow flowers were used in artistic profusion. There were no attendants.

After the ceremony, which took place at 11 o'clock a wedding luncheon of three courses was served. The luncheon appointments were also in yellow. Mrs. Florschuetz and Miss Florence Webber, sisters of the bride, assisted in the serving.

Mr. and Mrs. Hamaker will take up their residence in Chana upon their return from a wedding trip taken to Chicago.

From Washington, D. C.

Mrs. Raymond Macumber and two daughters of Washington, D. C., are guests at the home of Miss Olga Brown. From here they go to Minnesota to visit Mrs. Macumber's parents, Mr. and Mrs. Henry Brown.

Wedding Announced

Rochelle, Ill., Feb. 16—Announcement cards have been received here of the marriage of Mrs. Nora B. Moss and Mr. Frank Carpenter which occurred at Aurora on Wednesday of last week. The bride is a daughter of Mrs. C. J. Hackney and has resided with her mother in the George D. Banning residence on Lincoln avenue. Mrs. Moss and Mrs. Hackney recently moved to Rochelle from their farm six miles north of Rochelle. Mr. and Mrs. Carpenter will make their future home on the bride's farm near Malta, after their wedding trip to Detroit, Mich. Mr. Carpenter has resided here only a short time.

Engagement Announced

Rochelle, Feb. 16—Miss Marie Vaughn, a daughter of Mr. and Mrs. William Vaughn, of 614 N. Main street, announced her engagement to Mr. Ernest Herrmann to the members of the "Sewing" club. The ceremony took place Friday evening. Her guests were twenty-four young ladies. The evening was devoted to cards.

The announcement was made by the use of heart-shaped score cards. The house was beautifully decorated in yellow and white.

Bridge Luncheon

Mrs. Richard Bovey entertained at a one o'clock bridge luncheon Friday afternoon the members of the South Side Bridge Club.

Entertained Class

Mrs. P. L. Pope of North Galena Avenue was hostess on Thursday to the members of Mrs. Rowe's class of the Methodist Sunday School. About forty were present and spent a delightful afternoon. Features of the afternoon's entertainment were the delightful piano solo given by Miss Alta Peterson, the pleasing recitation given by Miss Peterson's little brother, and a beautiful piano duet given by the hostess' daughter and Miss Margaret Knell. Mrs. Runyon, who soon leaves to make her home in Austin, was remembered by the class with a handsome silver spoon, presented by Mrs. Curtis. Those assisting Mrs. Pope were Mrs. Peterson, Mrs. Ralph Moore, Mrs. McNeil, Mrs. Prescott, Mrs. Peacock, and Mrs. Palmer.

Reception

Amboy News: A reception was given February 7th at the home of Mr. and Mrs. Elmer E. Turner near Sublette, in honor of their son Harry and his bride. A delicious dinner and supper were served, the table being decorated in pink and white roses. Three rooms were beautifully decorated in pink and white crepe paper streamers caught in the center by large wedding bells. The guests were relatives and close friends numbering about forty-five. The day and evening was spent in a most enjoyable time. A portion of the entertainment consisted in some very fine selections on the piano by Miss Leo Buller.

About nine o'clock in the evening some of the young men and boys friends of the groom contributed their share to the merry-making in the shape of exciting serenades, and received their reward of cigars and bananas.

Mr. and Mrs. Turner were married Wednesday, Jan. 31st, in the parlor of the Chick hotel in Rockford, by the pastor of a Methodist church in that city. Mr. Turner is a young man well liked in this vicinity, and his bride, formerly Miss Lilian Thomas of Bradford township, is also held in high esteem by those who know her.

Bowers-Schene

Rochelle Independent: Miss Irene Lillian Bowers, of Ashton, and Mr. Edward Schene, of Rochelle, were quietly married at the Presbyterian manse by Rev. D. N. Scott, at 2:30 o'clock, Wednesday afternoon. The ceremony was witnessed by Harold Stevens and Mrs. D. N. Scott. The groom is a son of John Schene, residing on R. F. D. route 4, and is a steady and industrious young man. Miss Bowers formerly resided in Harpersburg, Md. The young people will make their home in the country where Mr. Schene's services are eagerly sought by farmers desiring the services of a competent workman.

Surprise for Bride and Groom
Franklin Grove Reporter: Mr. and Mrs. Harry Mahr of Fairbanks, Texas, were surprised at the home of Mr. and Mrs. Lee Wallace in Nachusa township Saturday evening with a charming party followed by a shower of miscellaneous articles of household use. About fifty of the neighbors of Mr. and Mrs. Wallace participated in the evening's fun.

Mr. and Mrs. Mahr were married in Fairbanks, Texas, in December. The bride was formerly Miss Ruth Parker of Nachusa township. They will make their home the coming season at Giltner, Neb., where Mr. Mahr has a position as manager of a stock farm.

Attended Wedding

Raymond Llevan of Brookings, S. D., left last evening for his home after a visit of a week with his parents, Mr. and Mrs. J. H. Llevan. While here he attended the wedding of his sister Ruth to Harold McCleary.

Lat-a-N Club

The Lat-a-N Club of Palmyra met Friday afternoon with Miss Letitia Hoy. Twelve members were present and one guest, Miss Ada Fabre of Polo. Valentine games, planned by the hostess, proved very amusing and the decorations were a la the dear old saint, as well. The next meeting will be held with Mrs. Wilbur Bates on College avenue, Thursday, March 1st.

From Colorado Springs

Atty. and Mrs. J. P. Sanford of Colorado Springs arrived Friday for a visit with Mrs. Sanford's brother, W. W. Gilbert. They left today for Florida where they will spend the remainder of the winter.

G. A. R. Circle

The ladies of the Grand Army Circle held an old fashioned rag, been at the hall Friday, and several pounds of sewn rags testify to the busy fingers of the members. A most delicious luncheon of clam chowder, veal loaf, buns, creamed potatoes, baked beans, chili sauce, jelly, tapioca, cake, and coffee was served.

On Monday evening at the hall a short business session at the regular meeting will precede a program to be given in honor of Washington and Lincoln. Dr. F. D. Altman will give an address, Miss Altman and Miss Slothower will render a vocal duet, and the Hedley Quartette will sing. There will also be other enjoyable program features. The public is invited.

PAPER MAKERS YIELD TO PRESS

Wilson's Contemplated Personal Action Caused Them to Give In (Associated Press)

Washington, Feb. 17—The print paper manufacturers yield to the government efforts to restore normal prices and to agree to permit the federal trade commission to determine a fair scale, only when they were confronted by the alternative of personal action by President Wilson and a special session of congress to pass remedial legislation. The administration is taking steps to guard against a shortage in the future supply.

Conrad Gonnerman is suffering to day from a nervous shock which resulted from a fall from his wagon yesterday when an automobile, in making a short turn, ran into his wagon. Mr. Gonnerman was knocked out from the wagon and fell directly back of the horse. Fortunately for Mr. Gonnerman his horse stood still and he was able to extricate himself with no further injuries than a number of scratches and bruises.

EXPECTS TO FEEL BETTER

Rev. John Dornhoefer, despite his illness of the past few days, will occupy the Congregational Church pulpit on Sunday.

Select Fruit for Storage With Care

It would be hard to overestimate the value of cold storage for fruit. The difficulty is that very few growers, except in localities where there are large commercial orchards, have access to cold storage. But many might keep apples in cellars for a few weeks at least.

Apples for cold storage should be picked when fully grown, but while still firm and well colored. They should be placed in cold storage promptly and all unnecessary delay in grading and packing avoided. Storage direct from the orchards without grading and grading at leisure, is good practice. For long period storage only the best fruit should be selected and it should be free from disease or blemish of any sort. If the fruit is immature or poor quality it will naturally decay more readily. If overripe it will dry out and evaporate and become what is known as "mealy." Overgrown fruit is not desirable for storage as it lacks firmness. Medium size, well colored fruit is the best.

A Powerful Fertilizer

Nitrate of soda is a powerful fertilizer when properly used. It becomes plant food as soon as dissolved and enters immediately into the composition of the plant. Care must be exercised that it is not used too freely. When too much of this salt is applied, the roots are injured and the plant becomes stunted or dwarfed. Upon examining the root system of such plants it will be found that the roots are very short and the ends are stubby. There is little tendency of these stubby roots to form fibrous laterals.

Growers who are not familiar with the use of nitrate of soda should not attempt the use of this fertilizer until they have learned how to use it properly. A very slight sprinkling of salt about each plant will serve the purpose. Liquid manure is a safer fertilizer and equally valuable when properly applied. An excellent method to prepare liquid manure is to place a bushel of old unleached cow manure in a tub or half barrel and then fill with water. Stir occasionally and in three or four days the liquid will be ready to apply. It should be used in the proportion of one quart to four gallons of the water and any quantity of it may be poured about each plant.

A raw egg is one of the most nutritious of foods and may be taken very easily if the yolk is not broken. A little nutmeg grated upon the egg, a few drops of lemon juice added, some chopped parsley sprinkled over it, or some salt and a dash of cayenne pepper, vary the flavor and tend to make a more palatable when taken as a medicine.

The white of a raw egg is the most satisfactory of pastes, and is better than any prepared mudclay or paste you can buy. Papers intended to be put over tumblers of jelly and jam will hold very securely and be airtight if dipped in the white of an egg.

BELIEVE SUSPECT IS SPY

Man Claiming to Be Illinoisan Arrested in Connection With Plots.

Trenton, N. J., Feb. 17—Moody Cooper, who claims to be a native of Illinois, twenty-nine, married, with wife at 10 Lafayette avenue, Brooklyn, was committed to the Mercer county jail under suspicion of being a German spy with intent to destroy the munition plant of the John L. Mott company of New York, located here.

He is also suspected of having fired a munition factory at New Brunswick, fifteen miles north of Trenton.

The American Marriage.

It has long been axiomatic that the American wife felicitates herself on her superiority to her husband, though she refrains from telling him so. On the other hand, the American business man has ever been accused of sacrificing his wife on the altar of his own absorption in money-making, and of solving the wounds due to his neglect with the ointment of unlimited credit. —Robert Grant in Scribner's.

ARE THEY GOING TO MAKE GOOD?

There is a republican governor of Illinois.
There is a republican majority in both houses of the Illinois legislature.
The republican party at its convention in Peoria last September pledged itself to a constructive program of state administration in the interest of economy and efficiency, to a budget system, and to a constitutional convention for the revision of the fundamental law of the state.
Upon these pledges the party and its candidates made a successful campaign.

It is now up to the victors to make good.
Gov. Lowden is keeping faith. The efficiency and economy committee, after thorough investigation and deliberation, made a report upon which the governor has built a measure for the consolidation of 100 state commissions, boards and bureaus into nine departments of finance, agriculture, labor, mines, public works, charities and corrections, public health, trade and commerce, and registration and education. It also provides for the all important system of appropriation by budget.

By this measure many jobs will be wiped off the governor's list, but the taxpayer and every man, woman and child in the state will be benefited not only by the saving in expense of public administration but by increased efficiency in the new organization.

Gov. Lowden is making good. Every intelligent citizen, whatever his politics, is behind him in the valuable service he is trying to do them and the state.

If the republican legislature breaks faith with the people, the party will be put out of office at the next election. Every republican in the assembly is honor bound to support this measure by voice and vote. It is not a matter that any one of them can dodge. The state, with its grossly wasteful expenditures, demands this reform. The party is pledged to it. There should be no doubt of its prompt passage.

The same duty lies upon the republicans of the assembly to pass the resolution submitting the question of a constitutional convention to the people.—Chicago Tribune.

THE DEMAND OF ILLINOIS.

It is not only the desire of Governor Lowden that the business of the State be placed upon a basis of efficiency and economy.

It is the strong demand of Illinois.

It comes from every quarter of the state.

There has long existed the conviction, ever broadening and deepening, that many methods and much machinery employed in the state's service are inefficient, expensive and superfluous.

It has long been the general belief that simpler, better, less expensive ways of doing what is undertaken by the state should be adopted—that public business should be governed by the principles that govern all private business establishments, bog or little.

And, as the business of the state has become vaster, and leaks have grown greater, the demand for change becomes more urgent.

Increase in national burdens, present and prospective, adds to the emergency need for doing now in state affairs what the governor is advocating.

The business man whom Illinois has placed in the governor's chair points out a plain and practicable way to get what is desired and needed.

The people of the state demand that plan's adoption.

If any legislator doubts this, let him read the newspapers of his district or talk with the people of his district.

No senator or representative can afford to put himself in an attitude of opposition to the consolidation bill. None can afford to place an obstacle of any sort that may delay its passage. The temper of the state is not to tolerate with patience tactics such as sometimes beat the bills that are demanded by the public. The demand for the adoption of the business basis that the governor proposes is the demand of Illinois—and of an Illinois that is awake and very much in earnest.—Canton Register.

A CURSE OF PRESIDENTS

In 70 years Santo Domingo has had 50 presidents. Hardly any one of them has been elected without a revolution or has succeeded in maintaining a government without a powder fight.

The United States is now trying to give the country peace thru temporary military occupation.

There is not a public school building in the republic and only 10 per cent of the people can read and write. There has been no lack of teachers, for they have drawn their salaries from the government. Some instructors even had no pupils.

There has been little farming. No sooner would the husbandman plant his crop and begin to cultivate it than a revolution would come on and away would go both cultivator and crop.

One of the first acts of the government under the direction of the United States will be to establish 200 miles of highway thru "La Vega Real" (the Royal Valley) discovered by Christopher Columbus and still for the most part virgin soil.

This "La Vega Real" is also known as the Cibao country and is declared sec.

We have an object lesson of what happens to a people when only a few of them are literate and when the politicians are in such control that there is no time for farming.

As a prominent writer has said: "A book has been written showing that nations must ultimately succeed or fail according to their productivity which in turn is the result of character, intelligence and industry. This simple statement does not mean much, however, until one sees clearly that the real test of character, intelligence and industry is productivity; and that a government, school system, or even religion which does not succeed in making people productive, in the broad sense, is a failure."

Next Week is Pay Up Week. Observe it, and govern yourself accordingly.

It will be quite a distinction not to be a candidate for Highway Commissioner if everybody comes out who is expected to come out.

U. S. IS ANXIOUS ABOUT CONSULS

Inquiry Sent to Berlin Regarding Their Delay.

BREAK WITH AUSTRIA, RUMOR

Unofficial Report Says Ambassador Penfield Has Broken Off Relations With Vienna—Negotiations Were on Regarding Divers—Americans Warned to Leave, Says Report.

Washington, Feb. 17.—The situation of American citizens in the countries of the Teutonic allies became the prime consideration of the United States in the German crisis. An inquiry was dispatched to Germany asking where and why American consular officers had been delayed in their departure.

The state department showed grave concern over the delay in the departure of the American consular officers. Eighty-six American consuls with their families and an unknown number of private American citizens desiring to leave Germany were reported ready to start for Switzerland on a special train early in the present week. Ambassador Gerard from Bern notified the state department that the train should leave "some time this week." Since then nothing has been heard from the trainload of Americans. The state department directed a formal inquiry as to where and why their departure has been delayed through the Spanish ambassador at Berlin, now handling American affairs there.

Break With Austria, Report Says.
London, Feb. 17.—The negotiations between Frederic C. Penfield, the American ambassador at Vienna, and the Austro-Hungarian government have been broken off, according to the Berliner Tageblatt, as quoted in an Exchange Telegraph company dispatch from Copenhagen.

Negotiations Were on Divers.
Washington, Feb. 17.—From the state department it was learned the only negotiations in progress, so far as known, were Ambassador Penfield's efforts to inform the government of the attitude of the United States on unrestricted submarine warfare.

The status of threatened breaking off of diplomatic relations was said to be unchanged.

Americans Warned to Leave.
Paris, Feb. 17.—Americans in Austria have been warned to leave that country.

Hope to Avert Break.
Washington, Feb. 17.—State department officials, discussing the report from Paris that Americans had been warned from Washington to leave Austria, said no instructions to this effect had been sent to Ambassador Penfield at Vienna. They considered it probable that Ambassador Penfield might have taken such action on his own initiative. Officials say they still hope that a break with Austria may be avoided, but admit that all recent indications are to the contrary.

Nothing Official About U. S. Tars.
Washington, Feb. 17.—An inquiry as to the truth of unofficial reports of the release of the seventy-two American Yarrowdale prisoners was sent to the Spanish minister at Berlin late in the day by the state department. Pending a reply, demand that the men be freed will be withheld.

No German Seamen Being Held.
Washington, Feb. 17.—No German seamen on ships in American harbors are being held except those who are believed to have violated some law. This was indicated by reports taken to the cabinet meeting by Attorney General Gregory and Secretary Wilson. The purpose is to show Germany that the United States is living up to its treaty obligations in the treatment of seamen on German ships in American harbors.

WINTER DAIRYING PAYS

Significant Facts Revealed by Records of Cow Testing Association in Northwestern States

When asked why they prefer to have all their cows freshen in the spring, a number of farmers in the Northwestern States said positively that winter dairying did not pay in that section. The agent of the cow testing association, therefore, investigated a number of farms to determine whether it was the best practice in that region to have cows freshen in the spring because there is then plenty of grass, and "grass is a cheap feed." He found that the spring freshened cows gave milk for a time while the pasture was good, but as hot weather and flies came on, the flow gradually decreased until by fall they were usually dry. As the owners thought it did not pay to feed a dry cow, the cows were allowed to browse around all the fall, picking up what feed they could, and in many cases they were forced to "rustle" around the straw pile all winter. As a result, in the spring many cows emerged with little milk and were considerably weakened. By the time they freshened, they therefore got a poor start in the season, and in many cases their milk records the following year were still lower. It was not surprising, the agent points out, that the average cow, so mishandled could produce only about 150 pounds of butter fat a year.

Many so called scrub cows the agent points out, if freshened in the fall and given the right kind of feed and treatment during the winter before coming on grass for the latter part of their lactation period would prove to be money makers. This opinion seems to be supported fully by the records of the cow testing association in the same general locality. These records show that the average farm cow that freshens in the fall not only produces more milk and fat, but also is more profitable to keep. In one county many cows which freshened in the fall won a place on the association's honor list for January and continued to produce heavily during the winter. When grass came in the spring these same cows picked up their naturally waning milk flow and finished up with a good yearly production before going dry late in summer. What is still more important, however, from the profit point of view, is that the fall freshened cows produced the larger part of their records while milk prices were best. With the common idea that "grass is a cheap feed," therefore, this agent would couple the fact that "butter fat is usually cheap at the same time."

The highest January record of this association was made by a cow which produced 1,730 pounds of milk, or approximately 200 gallons, 3.7 per cent test, or 64 pounds of butter fat. Her milk, however, was sold on a city milk route and brought 20 cents a gallon, or approximately \$40 for the month. On the other hand, if the owner had sold his product on a butter-fat basis he still would have received \$19.20. As it cost him \$5.37 to feed the cow, his profit on a butter fat basis would have been \$13.83.

On this farm the cows get practically all the alfalfa hay and corn silage that they will eat up clean, and in addition a grain mixture of equal parts of rolled oats, bran, and shorts. Each of the heavier producers gets about ten pounds of this mixture daily. In addition to being well fed, the cows stand comfortably sheltered in a warm barn most of the time and have access to plenty of good water.

During the month six cows in this herd averaged 54.8 pounds of butter fat, worth more than \$16, while the feed cost was approximately \$5.37 apiece. The records kept by the cow tester gave the dairyman exact knowledge of the cost of feed and production in the case of each animal, and thus enabled him to cull out "boarders" and regulate his feed in proportion to the milk production of each cow. The association record for the farmer, however, seemed to establish the fact that in the region mentioned, winter dairying can be made to pay.

Charcoal is a thing that comparatively few poultry keepers even think of, Fanny M. Wood, who usually knows what she is talking about when she talks about poultry, says in Successful Farming: "Every hog raiser knows that charcoal and ashes are good to keep pigs healthy, and every chicken raiser ought to know they are good for chickens also. One summer the head of the house stored a barrel of charcoal in the barn for the pigs. This was before we shut the chickens out of the barn, and every day when I went to gather the eggs, I found one or more hens in that barrel scratching and picking out small bits of charcoal. I concluded they needed charcoal in their business or they wouldn't be eating it. So I put a panful of it in the chicken yard for them, and have kept it before them ever since. We never have sick chickens and I think the charcoal has something to do with their healthfulness."

The white of a raw egg turned over a burn or scald is most soothing and cooling. It can be applied quickly, and will prevent inflammation, besides relieving the stinging pain.

Miss Frances Austin is home from Williston Hall, at DeKalb, for the week end and has a guest, Miss Grace White of Chicago.

BORDER IN FEAR OF VILLA RAIDS

Women and Children Are Removed to Interior.

U. S. STRENGTHENS PATROLS

Cowboys Declare Vengeance Against Bandits Who Killed Three of Their Number—Wife of One Victim May Die—Villa Calls Convention of Followers.

Hachita, N. M., Feb. 17.—Fearing that Jose Ynez Salazar, Villa leader, would carry out his threat to attack one of the border towns, American women and children were taken to places of safety at interior points, while cowboys proclaimed their intention of seeking revenge for the murder of their three companions, Andrew P. Peterson, Burton Jensen and Hugh Acord, by Mexican bandits following the raid on the Corner ranch, Monday. Only the fact that Salazar was reported to have a force of 500 well armed and mounted men against their fifty, it was said, deterred the cowboys from attempting to carry out their designs.

Two troops of the Twelfth United

States cavalry patrolled the border in what is known as the "fog," where the raid occurred. Further incursions by the bandits was not expected. Whether the American troops would cross into Mexico, Lieutenant Colonel Waterman, commanding, said depended on instructions from headquarters.

Widow in Critical Condition.

Mrs. Peterson, who was widowed when the Mexican ranch raiders killed her husband late Monday, is in a critical condition, following the receipt of news that her husband's body was found. Mrs. Peterson is about to become a mother and she was attended throughout the night by physicians and nurses, who feared she could not live twenty-four hours. Peterson left seven children.

Mrs. Jensen, whose husband also was killed by the raiders, fainted when told of the triple murder and is under a physician's care. Jensen left two small children. Hugh Acord's aged mother was prostrated from the shock of her son's death. Acord was unmarried.

Villa Calls Convention.

El Paso, Tex., Feb. 17.—Francisco Villa, bandit leader, has called a convention of his chiefs, to be held next week at San Andres, to form a civil government and select officials. In the proclamation calling the convention, Villa announced that only civilians who have remained in Mexico will be eligible for places in the new government.

Funston to Strengthen Patrols.

San Antonio, Tex., Feb. 17.—As a result of the raid on the Corner ranch and the activity of Salazar's forces south of the border, American patrols

in the border territory west of Columbus are to be strengthened, General Funston announces.

Believe Bandits Trapped.

San Antonio, Tex., Feb. 17.—American troops have cut off the escape of a band of Mexicans who crossed the Rio Grande south of Zapata, Tex., Wednesday night and attacked infantrymen of the Second Florida regiment, General Parker reported to General Funston. The capture of the bandits is expected hourly, he said.

Chemise Has Come Back

White goods sales in January have become an established custom in dry goods houses all over the country. At this time they make the best showing of the year in cotton and linen yard goods, presenting their new stocks and all their leftover and short lengths—the latter marked down for quick clearance. At the same time they inaugurate their annual sales of lingerie and lingerie hosiery and their new cotton dress goods. It is the best time to buy things of this kind because stocks and assortments are complete and there is time enough ahead to make up whatever additions are needed for the wardrobe before spring comes.

The chemise has come back and is fully restored to favor. Perhaps the new one-piece straight-hanging dresses have contributed something to the regained prestige of this comfortable bit of underclothing. It is shown in three styles—the straight chemise, the envelope chemise, and the pantaloen chemise. The envelope chemise, pictured in the illustration, is on the crest of the wave in point of popularity. The pantaloen chemise is merely another name for "combination," except that it is cut all in one piece, without any waistline. The straight chemise is our old friend returned without any change from the pattern of days gone by.

These garments are made in batiste and in crepe de chine and other wash silks. A search for heavier materials finds them conspicuous by their absence.

"Yes, I reckon. Well, I wonder if you'd be willin' to do me a little favor when you git to New York."

"Certainly, certainly. Glad to oblige you. What can I do for you?"

"Well, I got a nephew there named Jones. His name is Ed Jones, an' he lives somewhere in New York, but I ain't got his address. Had it, but don't seem able to find it now. My wife an' me thought it would be nice to send Ed an' his wife a few things right from the farm, an' I was wonderin' if you would be willin' to take him a pair o' chickens an' a dozen ears o' corn an' a few of our fall pippins an' a dozen or two o' eggs an' a green to-mato pie like he used to be so fond of when he was a boy here in the country. We'd like to send him a bottle o' maple sirup an' another ripe gooseberry jam an' a little jar o' sweet pickle an' a bottle o' ketchup such as I bet he can't buy there in the city. If it'd be convenient to carry them, His full name is Edward Everett Jones. I reckon you'd find him in the city directory. I'll fetch the things over to the hotel this evenin' in a carpet bag that was Ed's great-grandfather's, an' mebbe he would like to have it as well as what's in it. Much obliged to you for the favor o' takin' those things to Ed. I reckon he'll be some s'prised when he gets em. Mother thinks sh'd like to send Ed a little kitten in a box if it wouldn't be too much trouble for you to take it."

The many friends of Mr. and Mrs. Jacob Stenger gave them a farewell surprise party at their home on Thursday evening, there were about forty guests present; the evening was spent at cards, after which lunch was served. They all enjoyed the evening very much. Mr. Stenger will soon move to Mendota.

Dramatic Notes

PRINCESS THEATRE

Tonight at the Princess you will find Dan Russell in a two reel comedy entitled "Terrors of a Turkish Bath," one big laugh; Edith Johnson and Ed Hearn in "For Love or Gold," a two reel western drama, and "Ancient India," as seen by Dr. Dorsey, an educational reel.

Sunday night Ella Hall and Harry Depp will bring delight to votaries of motion pictures when "The Love Girl" is exhibited at the Princess, with Miss Hall in the stellar role. R. Z. Leonard has directed the production from his own scenario and a capable company of Bluebird photographers have been cast in congenial roles, with handsome Adele Farrington leading lady.

INTOLERANCE.

Chicago, Ill., Jan. 17.—Having proved that the cinema drama may be made a most powerful weapon against the spirit of intolerance, which is encroaching on America's liberties in many directions, David Wark Griffith has been appealed to by Chicago club women to aid in the cause of complete woman suffrage.

The intense hold which Griffith's \$2,000,000 spectacle drama, "Intolerance," has taken since it opened at the Colonial theatre was shown last week in convincing manner. The executive committee of the Woman's Party of Cook county, of which Mrs. Charlotte Rhodus is president, appointed a group of women to call upon Mr. Griffith. They propose to present a petition, signed by hundreds of feminine leaders in civic progress, asking that Mr. Griffith base the story of his next great production on woman suffrage.

"A drama teaching the lesson of equal rights for all citizens, by David Wark Griffith, creator of 'The Birth of a Nation' and by its far greater successor, 'Intolerance,' would carry the suffrage cause to victory on a high wave of public sentiment," said an officer of the Woman's Party of Cook County. "Mr. Griffith should be able by virtue of his wonderful art to build a play which would be a milestone for complete suffrage, one such as 'Uncle Tom's Cabin' proved to be for the anti-slavery movement."

That colossal of tremendous spectacle dramas, "Intolerance," is playing to capacity houses, audiences of a size proportionate to the bigness of the play. Orders by mail for seats are coming from points hundreds of miles distant from Chicago, and these are being filled by the busy Colonial staff for dates to four weeks in advance.

CLEAR THE SLATE

In earlier days it was common for buyers to say to the store keeper, "Put it on the slate," which happened to be the usual ledger for keeping accounts. When the customer got hold of some money he would come in and say, more or less cheerfully, "Clear the slate," and the account was wiped out with cash in hand.

"Clear the slate" is the slogan of immense practical worth. Men who walk the streets with the consciousness that they owe no man anything, show it in their walk. Their knees don't sag. Their chins don't drop. Their shoulders are up, chins up, heads up, and they look the world in the face without a notion of dodging anybody. A nation made up of citizens who made it a business to keep the slate clear could quickly lead the world in the business of being free men.

UGH! ACID STOMACH, SOURNESS, HEARTBURN, GAS OR INDIGESTION

The moment "Pape's Diapiesin" reaches the stomach all distress goes

Do some foods you eat hit back—taste good, but work badly; ferment into acids and cause a sick, sour, gasy stomach? Now, Mr. or Mrs. Diapiesin, for this down: Pape's Diapiesin helps neutralize the excessive acids in the stomach so your food won't sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is upset you usually get happy relief in five minutes, but what pleases you most is that it helps to regulate your stomach without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapiesin" is positive in neutralizing the acidity, so the misery won't come back very quickly.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eruptions of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia, or any stomach disorder, due to acid fermentation.

COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed with Sulphur it Darkens so Naturally Nobody can Tell.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

FAVOR STATE PROHIBITION BILL.

At a special business meeting of the members of the Brethren church on Thursday night a unanimous vote was cast in favor of the state prohibition bill. The representation at the meeting was sufficient to warrant that the entire membership is eager that the bill be passed. The attitude of the church will be made known to our representatives at Springfield urging them to favor the bill.

STERILIZER FOR DAIRY

Inexpensive Homemade Device—Milk and Cream Keep Longer When Utensils Are Sterilized

A simple and efficient homemade steam sterilizer which can be built at a cost not to exceed \$5 to \$10 is described in a new Farmers' Bulletin, No. 748, prepared by the Dairy Division of the department. This bulletin can be obtained free of charge on application to the department.

The ordinary washing of dairy utensils, the dairy specialists point out, is not sufficient to insure freedom from bacteria. The only safe method of destroying in utensils germs which affect the hygienic and keeping qualities of milk and cream is by sterilization. Even when dairy utensils appear clean, if they have not been properly sterilized they may harbor vast numbers of bacteria which contaminate milk or cream that comes into contact with them. Live steam at a temperature of at least 205 degrees F. is a thoroughly effective agent and one that this home made apparatus makes readily available on the average dairy farm.

When placed on a stove or oil heater the apparatus in question develops steam in a shallow pan and introduces the live steam through a pipe into milk cans and buckets. In sterilizing separator parts, small articles, and strainer cloths, a galvanized iron box is placed over the steam outlet and used as a sterilizing chamber.

The sterilizer for cans and milk pails consists of (1) a roasting pan, (2) a specially prepared, insulated cover for it, and (3) a steam outlet pipe that runs through the cover. An ordinary roasting pan of standard size about 20 inches long, 14 inches wide, top measurement, and 3 inches deep, will be satisfactory.

The insulated cover for the pan is in three layers, the lowest of which is a sheet of galvanized iron covering the roasting pan and lapping a little over the edges. On the bottom of the cover solder flanges to meet and fit the inside edges of the pan and make a tight cover.

For the steam pipe, cut a hole one and one half inches in diameter, and around it solder securely a steam outlet pipe four and a half inches high and one and one half inches in diameter.

To make the second layer of the cover, use a piece of asbestos board five sixteenths of an inch thick and slightly smaller than the metal sheet. In the center cut a hole which will fit tightly around the steam outlet pipe.

For the top layer of the cover make a shallow pan of galvanized iron 14 inches square with sides five eighths of an inch high, and cut a hole for the steam pipe. When the pan is pressed down tight on the asbestos, solder it firmly to the steam outlet pipe.

On the pan, solder, on edge, four strips of stiff galvanized iron three eighths of an inch wide. They should start one inch from each corner and should run to within one inch of the outlet pipe. These strips provide ridges which raise the milk can from the pan and permit free circulation of steam.

Paper may be used instead of asbestos for the middle layer of the cover. Pack papers tightly to a height of three eighths of an inch over the galvanized iron bottom, and on top place another galvanized iron sheet of the same size. Solder these two sheets all around the edges, so as to make a tight seam. This makes an insulated cover and pad about three eighths of an inch thick, which will be found as satisfactory and even preferable to the asbestos insulation.

The sterilizer may be used on the kitchen stove or other stove, or over any other heat that is sufficient to furnish steam at the end of the outlet pipe at least 205 degrees F., or preferably 210 degrees to 211 degrees F. A thermometer, if placed in the outlet pipe will show whether the steam is not enough.

Place the outfit, with 1 inch of water in the pan, on the stove, and see that the cover fits tightly. The first steam that comes from the apparatus will have a temperature of about 140 degrees F. Wait until a thermometer placed in the outlet pipe shows at least 205 degrees F. Then place the milk can—previously washed and rinsed—inverted over the steam outlet and resting on the ridges. Sterilize for 5 minutes; remove, shake out any water, and place the can upright on the floor. The can should be absolutely dry in 1 or 2 minutes. If not, it is an indication either that the steam was not hot enough or that the can was not washed clean. Remember that the steaming does not remove dirt, so that previous washing is essential.

Sterilize the milk receiving tank and separator parts and all milk pails in the same way and for the same time.

Before strainer cloths, separator parts, can covers, and small utensils can be sterilized it is necessary to provide a bottomless, galvanized iron box 15 by 15 by 11 inches high, to be used as a sterilizing chamber. The four sides of the box should fit tightly into the shallow pan and the box itself should be provided with a tightly fitting metal cover equipped with a handle.

WETS ARE DIVIDED ON BIG LIQUOR QUESTION

Reform and Referendum Furnish Puzzling Alternative.

SPRINGFIELD, ILL., Feb. 17.

There is no secret about the fact that the wet leaders fear they may lose some votes among those of their followers who believe that to deny their constituents a reform and a referendum at the same time is too big a gulp. Of all the anti-liquor measures presented to the Fifty-fifth general assembly, the wets prefer the Bruce bill if they have to take any.

Tuesday the assembly will convene, but will hold sessions for only two days of next week. Adjournment will be taken on Wednesday, the day before Washington's birthday, until Wednesday of the following week. This leaves all the Chicago legislators free to pursue political activities at the democratic primaries, Feb. 27. The senate will have but two days next week to work on consolidation, and for this reason not much is expected to be accomplished until the week after.

This has caused attention to be centered on the Bruce bill, as affording the developments for next week. The house judiciary committee has scheduled it for hearing Wednesday afternoon, and those who have been watching it assert the opposition to it will be considerably modified from what this sentiment was several weeks ago.

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE NORTHERN DISTRICT OF ILLINOIS, WESTERN DIVISION.

In the Matter of Louis Carl McWilliams, Bankrupt. In Bankruptcy. No. 423.

TO THE HONORABLE KENESAW MOUNTAIN LANDIS, Judge of the District Court of the United States for the Northern District of Illinois:

Louis Carl McWilliams, of Harmon Township, in the County of Lee and State of Illinois, in said District, respectfully represents that on the 29th day of December, A. D. 1916, last past, he was duly adjudged bankrupt under the Acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said Acts and of the orders of the Court touching his bankruptcy.

Wherefore he prays that he may be decreed by the Court to have a full discharge from all debts provable against his estate under said Bankruptcy Acts, except such debts as are excepted by law from such discharge. Dated at Dixon, Illinois, this 30th day of January, A. D. 1917.

LOUIS CARL MCWILLIAMS, Bankrupt.

MARK C. KELLER, Atty. for Bankrupt.

Northern District of Illinois, Western Division, ss.

On this 12th day of February, A. D. 1917, on reading the foregoing petition, it is

Ordered by the Court that a hearing be had upon the same on the 16th day of April, A. D. 1917, before said court, at 10 o'clock in the forenoon; and that notice thereof be published in The Dixon Evening Telegraph, a newspaper printed in said District, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

And it is further ordered by the Court that the Clerk shall send, by mail to all known creditors, copies of said petition and this order, addressed to them at their places of residence as stated.

Witness the Honorable K. M. Landis, Judge of the said Court, and the seal thereof at Freeport, in said District, on the 12th day of February, A. D. 1917.

T. C. MACMILLAN, Clerk. By K. D. BURRELL, Deputy.

COW SALE.

Having decided to keep only full-blooded Holstein cattle, the undersigned will sell at public auction, on the Spring Hollow farm, 3 1/2 miles east of Dixon on the Daysville road, on

Wednesday, Feb. 21, 1917. The entire herd of high-grade Holsteins, consisting of

29 Head of Cows and Heifers. All except two of these cows were born on above named farm and are choice of all heifer calves born on said farm during the past seven years. Several of these cows are giving over 50 pounds of milk per day; all are straight and tight and each a good buyer for anyone in the dairy business. These cows are bred to Greenlawn Changing Butter Boy, whose dam made over 20 pounds of butter in seven days as a junior two years old, and whose sister, Changing Tidy Abbe-kirk Wayne, made over 40 pounds of butter in seven days during the month of December, 1916. Heifer calves from these cows will be worth money.

Also 5 Head of Registered Males. Consisting of two yearlings and three full calves; each straight back-Individuals, mostly white, and each ed, well developed and well marked will make a good herd sire. Registration papers furnished day of sale.

Sale to commence at 1 o'clock p. m. Usual terms. C. H. IVES.

OVERCROWDING POULTRY FLOCK

Disease, Parasites and Nonproductive ness Chief Resulting Evils

As the observing poultryman grows in years and experience he becomes convinced more and more that if there is one mistake made by poultry raisers that causes more loss and grief than any other, it is overcrowding. The flock that is overcrowded is subjected at once to nearly all the profit killing ills that poultry is heir to, while on the other hand plenty of room is the best and cheapest remedy for troubles caused by crowding.

Perhaps the greatest evil resulting from overcrowding is the tendency towards disease of all kinds, especially infectious ailments. This is to be expected, not only because the close proximity of the birds aids disease to spread readily from one to another, but also because of the impossibility of maintaining sanitary conditions, whether the birds are indoors or out, or whether the season is summer or winter.

Some poultrymen have the mistaken idea that because their birds are in an open pen out of doors a little crowding will do no harm. Ventilation is important, but so are some other factors. The worst evil in close yarding is that the ground becomes foul so quickly. Being forced to stand, scratch or pick up feed in their own filth is a sure means of bringing trouble and plenty of it.

There are poultry raisers who think that crowding in the house in winter will do no harm, just so the birds are warm. In fact, some few persons believe that some crowding in the winter is a good thing, because it insures warmth, through the birds huddling together. This is as bad or worse than crowding out of doors.

Another of the evils of close yarding is that this means idle birds. Such a bird is not a good producer and, worse than that idleness encourages the worst of vices and habits with which the poultryman has to contend. Chief among these are egg eating and feather picking. Both habits are exceedingly difficult to eradicate, once they break out. The best way to discourage these habits and break them is to keep the birds busy scratching for their feed and be sure that they have the proper variety of food. Should these measures fail of a cure the habit is an incurable one and the offender had better be disposed of.

A third evil from overcrowding especially in warm weather, is the favorable conditions it affords to parasites of all kinds. Unless a constant warfare on these pests is kept up, the crowded poultry house or yard, including the birds, will soon be found to be literally alive with lice and mites. The parasite problem is a comparatively simple one in flocks that have plenty of room, due to a large extent to the fact that there is plenty of opportunity for these birds to dust themselves, and expect possibly at night, they are away from all places that harbor the pests.

There are precautions that the poultryman may take to overcome or avoid the evils of crowded quarters, such as spading up the yards frequently, providing plenty of clean scratching litter, fumigating the house frequently and keeping scrupulously clean. But the better plan is to cut down the size of the flock to the proper capacity of the quarters. A hundred hens in an overcrowded house or pen will not lay as many eggs as will 50 hens that have enough room. Yet the 100 birds will eat twice as much as the 50, cause twice as much work and probably more than twice as much worry. There are many poultry raisers who have from fifty to one hundred or more birds who would make more clear profit with 50 birds and do it with only a fraction of the work, but they have the mistaken idea that numbers is the thing that counts. They take a certain pride in being able to say they have a flock of 100 hens, when many of them would be better off by far if they only had 15 or two dozen.

IMPORTANCE OF HEALTHY KIDNEYS

Dixon Readers Should Learn to Keep the Kidneys Well

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching frequently begins and is often accompanied by some irregularity of the urine—too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 50 years. You will make no mistake in following this Dixon citizen's advice:

Mrs. H. Hipple, 1121 W. Seventh street, Dixon, says: "I have used Doan's Kidney Pills and have found them of great help for relieving kidney trouble and backache. One box is all that I have needed to remove any lameness or soreness in my back."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hipple had. Fister-Milburn Co., Props., Buffalo, N. Y.

The True Test. Only what thou art in thyself determines thy value; not what thou hast.—Auerbach.

THE SECKEL PEAR

It is well known among horticulturists that many of the most valuable fruits and flowers have been the children of chance, and the Seckel pear is an example amongst fruits. It sprang up in a meadow near what is now League Island Navy Yard, Philadelphia, and a few years ago the original tree was still standing, as it may be today. From what pear the seed came that gave it is not known. It must be fully one hundred years ago that it sprang into existence. The writer knew the pear fifty years ago, and it was then as popular as it is today. In company with several other pears, it has no beauty of appearance to attract. A dark brown tinted with red would describe it. There is not a deep yellow or other signs of its being ripe as many other fruits show. Its size is not large, so that altogether there is nothing to proclaim it what it is the standard of excellence among pears. This claim has never been disputed by anyone who has eaten it when in its prime, so delicious is its flavor. Depending on where grown for exact time of ripening, in the south eastern part of Pennsylvania it is an early October pear. How much climate has to do with the estimation of this pear, as well as of all fruits, is well known to fruit growers. It is probable that in British Columbia the Seckel is not esteemed as it is here, for there is more rain and less heat there than here; and in England, with a climate somewhat similar to that of British Columbia, the Seckel is not good at all. On the other hand, the Bartlett known in England and Germany as Williams' Bon Chretien, is a far better pear here than it is there, though not a native here.

Three excellent pears, all listed among leading kinds for flavor, are the Bartlett, Seckel and Lawrence ripening in the order named, Bartlett in early September, Seckel in early October, and Lawrence in mid-October, all varying a little in date according to season and locality.

These notes are being penned when a few Seckels are still on the trees, and Lawrence are ripening, and should be all gathered soon for fear of freezing. This last one, Lawrence, is classed as a winter pear, because of its late ripening, which permits of its being kept through the winter in cold storage. The Anjou, Beurre d'Anjou as it is used to be called, also ripens at about the same time as Lawrence or a little earlier, and is an excellent winter pear, kept as the Lawrence may be, but though greatly lauded, and undoubtedly a good pear, the Lawrence takes first place with many.

Propagating English Walnuts

An erroneous opinion prevails that the English walnut, as it is called, the Juglans regia, is not hardy. Hardiness is a term applied to what will endure the climate where one resides as generally understood, as well as all localities called on to endure the same cold and conditions. In the case of the walnut it endures all the winters it meets with as far north as the lake region at Rochester, N. Y., so that its range of hardiness is an extensive one. When in its seedling stages it has been known to suffer in extremely cold winters, even in Philadelphia, but never after it has passed a few seasons so as to have formed some hard, ripened shoots. Still, to help matters along, it is best to get the nuts for sowing from trees grown here, such trees being found in the vicinity of some of the older cities in the Middle States. The nuts of this walnut can be had from commission men in all large cities, and for general planting these can be used. If of new crop, they would still be fit for sowing if obtained any time before New Years. In the North it is not best to sow these nuts in the fall, experience proving that they cannot endure the freezing and thawing they meet with. Instead of it place them in a box of damp sand and set them in a cellar free from frost, where they can draw on the moisture through the winter, becoming plump and sound when spring comes. Sowing them then, every sound nut may be looked to to grow. In the vicinity of Philadelphia there are some trees of this walnut of immense size, planted by the original German settlers who took up their homes in its suburbs.

Farm Teams

One of the things to consider in making up farm teams is the uniformity of the force of workers. They should be alike as nearly as possible for the sake of ease in shifting about and filling vacancies whenever it becomes necessary. Well matched pairs should always be worked together, but when something goes amiss with one horse it is mighty handy to have another one of the same kind as a substitute instead of the aggravation of working a heavy and a light one together, or a steady and a nervous one in the same team. If the horse-power of the farm consists of geldings their usefulness rather than their quality is of first importance. Everybody likes a good team, but if the hired man has to handle them a cheaper pair that can do the work is less risky than a high priced team that he may ruin. Farm geldings are kept to work, not to look at, and the ordinary kind will do as well as any, if good workers, with less risk of loss by ignorant or careless handling.

Keeping many breeds is a poor way to succeed. Get down to one or two varieties and give them the best of care.

A hot-water bag often proves to be the friend in need, and if possible one should provide a suitable dress for it. One seen recently was made of white flannel embroidered with a simple wreath in pink and green.

DAY'S TONNAGE TOLL SHRINKING

Seven Ships Sunk Friday Are of Small Capacity.

MANY STEAMERS REACH PORT

Philadelphia Leaves Liverpool and Is Believed Outside Diver Zone—Last Word Was "All Well"—Carries No Guns—Many Passengers Aboard American Liner.

New York, Feb. 17.—Seven more vessels, five of them British and two trawlers of unidentified nationality, were listed by Lloyds as having been sunk. So far as is known, no lives were lost. The total tonnage reported destroyed is 10,336, which, however, is made to include that of one British steamer not listed in maritime records and of the two unnamed trawlers.

The day's toll brings the total number of ships sunk since February 1 to 114, and the total tonnage destroyed since unrestricted U-boat warfare went into effect to 239,050. Details of the losses are as follows:

Reported Friday: Longscar, British, 2,777 tons; Greeland, British, 1,753 tons; Percy Roy, British, 110 tons; Kyunsti, British; two trawlers. Total, 6 ships, 4,640 tons. Previously reported, 107 ships, 228,714 tons. Grand total, 114 ships, 239,050 tons.

Summary of ships sunk: American, 2; other neutrals, 34; British, 68; other belligerents, 7; unknown nationality, 2.

"All Well," Philadelphia Flashes. New York, Feb. 17.—The Philadelphia, first American liner to enter the submarine zone, should by this time be well beyond the danger line, American line officials say. A message from the liner saying "all well" has been received.

Philadelphia Sails for U. S.

Liverpool, Feb. 17.—The Philadelphia, the first American liner to leave Europe since Germany's declaration of unrestricted submarine warfare, sailed from here late Wednesday afternoon. She carried ninety-five passengers of all classes, of whom thirty-eight were Americans. Among the few cancellations were those of Frank Simmonds and Winfield R. Sheehan, who had planned to sail, but were prevented at the last moment by business reasons. Dr. Henry van Dyke, formerly United States minister to Holland, had originally intended to sail on the Philadelphia, but decided earlier in the week to postpone his departure until Saturday.

The Philadelphia is unarmed, carrying neither a mounted nor an unmounted gun. In addition to her passengers she carried a general cargo of what is known as express freight and two tons of dispatches from the American embassy in London for the state department in Washington.

The dispatch bags contained important documents forwarded from American embassies and consulates in nearly all the countries of Europe, including a large quantity from Germany which was dispatched before the break in diplomatic relations.

Tuscania Sails for Glasgow.

New York, Feb. 17.—The Anchor liner Tuscania sailed from New York for Glasgow. She carried a general cargo and a number of passengers. The Tuscania is owned by the same line which owned the torpedoed liner California.

Fear for Overdue Steamer.

Newport News, Va., Feb. 17.—Fears are entertained here for the safety of the British steamer Romney, more than a week overdue from Liverpool. The Romney carried a cargo of horses to Liverpool and had on board many white American muleteers.

Twelve Ships Reach Gotham.

New York, Feb. 17.—Twelve American, British, French, Belgian, Swedish and Dutch steamships, most of them freighters, arrived here, several having left European ports after Germany's submarine policy was announced. These ships make almost a record number of arrivals from the war zone in a single day, and the greatest number in one day since Feb. 1.

Three American freighters to reach here are the A. A. Raven, from Wales; Virginia, from Naples, and the Aztec, from Havre.

House Honors Veterans.

Des Moines, Ia., Feb. 17.—In the house Representative Weaver introduced Captain Voltaire Twombly and W. D. Christy, two survivors of the battle of Fort Donaldson in the civil war, of which it was the anniversary, and the house stopped business to cheer veterans.

Assaulted Girl, Aged 4.

Davenport, Ia., Feb. 17.—One of the most shocking cases ever called to the attention of the local juvenile court was resulted in the sentencing of Albert Garrow, a fifteen year old lad, to the state reformatory. He confessed to criminal assault on a four year old child.

For Compulsory Military Training.

Washington, Feb. 17.—Representative Caldwell of New York, during the debate on the army bill, announced he would introduce an amendment providing for compulsory military training.

Discovered by the Camera.

By means of the camera it has been discovered that 530 feet below the surface of the water darkness is much the same as that on the earth on a clear but moonless night.
